

Greetings to the Students at Pacific High School

As I look back over the school year, I remember how nervous I was prior to the start of school. Would I be accepted? Will students be friendly? Fortunately, I found much acceptance and very friendly students. Everyone seemed to want to help the new Principal get along. So I am full of gratitude for our students and teachers here at Pacific High School.

After a little while, I discovered how hard working and disciplined our students are. In a comparison study, our recent graduates on average have received higher college grades and have stayed in college longer than other Oregon graduates. Port Orford-Langlois School District is the only school district along the Oregon coast to meet and exceed all of the educational standards set by the No Child Left Behind Act. Throughout the school year I watched students juggle commitments of time and school work with athletic practices and away games. It is not easy being a high school student, but Pacific High School students are an excellent example of how to be successful.

Many of you know that I am retiring from school administration and returning to teaching. As I go to my new work, I want to share with you my hope for your future. Most of you have been told about the opportunities that are placed in front of you, opportunities for a full and meaningful life. Here in America we have more opportunity than any other nation. A young woman or young man can dream of any goal and set out to accomplish it. We can go to college or receive technical training and build careers that young people in other countries would not even dream about.

My hope for you is that you will take the knowledge and training that Pacific High School offers to every student and turn it into a beautiful life for your self, a life that you can share with others, and a life that you will be proud of as you grow older.

Thank you all very much.

Sincerely,

Dan Morin
Principal

“Every team has strengths and weaknesses, and every team has obstacles to overcome. This year, our team had quite a few obstacles; however, I feel that the girls fought hard to overcome most if not all of them. First, we were inexperienced. We had four girls who had never played basketball before. That put us behind most teams before the season even began. They started off the season not even knowing many fundamental skills, and not having an understanding of the game. The girls pushed through this obstacle, though, and they all learned a lot this year. We also had to face injuries and illness this year, which meant we played much of the season without our full team. This could have been a big setback. The girls battled this obstacle too, and though it was tough, they played every game to the end with heart. I am proud of these girls. They all improved much this year, both in their individual skills and as a team. I feel that improvement is the biggest measure of how well a team does at the JV level, and I feel the girls did well this year. I am happy to have coached you girls, and I hope you had as much fun and learned as much playing for me as I did coaching you.” -Coach Tiffany Freitag

Front: Justin Curry, John Bussman, Coach Wayne Everest, Willy Wayrynen, Phillip Maddi.

“JV Boys had a good year. Even though we only won six games, success isn’t always measured by wins and losses. Success can be measured by hard work, continuing to improve, never giving up, and coming ready to play. These boys did these things and more all year. They were a pleasure to coach. I felt it a privilege to get to know them better and be a small part of their lives.” - Coach Wayne Everest

BOYS VARSITY

"This year boys basketball team was exciting to coach. They played the game with great intensity at all times. Definitely I felt this group of young men demonstrated one of the best defenses in the league this year. They were competitive in almost every game and displayed tremendous athleticism. They were also enjoyable and fun to be around and personally gave me a lot of memories that I'll enjoy in this lifetime." _Coach Tom Dill

"The girls worked hard over the entire season and made a lot of improvement in spite of the numerous hurdles and injuries that were put before us. If not for these obstacles, I know we would have reached our main goal of winning some league games. In spite of this, we made some memories that are sure to last. Whether it was Midnight Madness, or the Pirate List, MFD or the daily chairs, constant handouts for your binders or my daily quotes, the pre-season scouting trips or the slide at Super 8, I'm sure there was something all of you will remember and even look back on with a smile in the years down the road. Thank you, girls, for all your hard work. Best of luck in your future endeavors."-Coach James Freitag
